

## Workday Supplier Contract Management.

Workday Supplier Contract Management offers a comprehensive solution for optimizing and authoring supplier contracts. It serves as a central repository, facilitating stakeholder collaboration, minimizing manual effort, and reducing errors. With a widely adopted contract management solution, organizations can easily avoid unexpected contract terminations or renewals.

Designed to streamline the contract management process, from creation and revision to negotiation and approval. It ensures that all stakeholders are well-informed throughout each phase. With Workday Strategic Sourcing Contracts, users gain visibility into every stage of the contract lifecycle, enabling proactive management of terminations and renewals, and reducing financial and legal risks and unexpected costs. This approach enhances efficiency and supports informed decision-making, ensuring the full value of contracts is realized.

Gain visibility into all supplier contracts and statuses through a centralized dashboard.

Create and revise contracts across multiple stakeholders and sign electronically through integrations with Microsoft Office 365®, DocuSign, and Adobe Acrobat Sign.

## Key Benefits

- Simplifies contract and clause management through a centralized repository
- Automates contract renewal notifications
- Integrates Microsoft Office 365, DocuSign, and Adobe Sign for streamlined creation and approval
- Provides structured approval workflows

## Results

- Saves time with efficient contract management through centralized collaboration
- Prevents costly delays and keeps stakeholders informed with automated notifications
- Speeds up negotiations for cost savings
- Quickly find and search for contracts and documents with Workday AI semantic search capabilities
- Reduces compliance risk and ensures consistency with clause management

## CORE CAPABILITIES

### Centralized Repository

Establishes a single source of truth for all contracts and related documentation.

### Seamless Integration

Integrate Microsoft Office 365, DocuSign, and Adobe Sign for efficient contract authoring and execution.

### Automated Workflows and Notifications

Ensures contracts follow correct approval processes and stakeholders receive status, termination, and renewal notifications automatically.

### Advanced Search

Quickly locate contracts and documents with Workday AI semantic search capabilities.

### Simplified Clause Management

Centralize and simplify clause management, enhancing consistency and reducing errors.

### Templatized Contracts

Search similar agreements to avoid repetition when creating contracts.

### Contract Hierarchy

Create parent-child relationships to visualize the contract hierarchy of every supplier.

### Unified Data Source

Seamlessly sync executed contract data along with invoice and PO values between Workday Supplier Contract Management and Workday Financial Management and Workday Procurement for a single source of truth.
